TotaLand: Revolutionizing Landman Operations with Innovative Software

TotaLand Revolutionizes Contract Management and Reporting for the Energy Industry

[Lafayette, October, 2023] – TotaLand, the industry-leading software platform for land management in the energy sector, proudly introduces a groundbreaking feature that is set to transform the way professionals manage and report on contracts. In TotaLand, the term "contract" encompasses various documents, including OGMLs, seismic permits, pipeline rights-of-way, and other crucial forms. This innovative feature ensures that all critical contract information, such as effective and expiration dates, form types, dollar amounts per acre or rod, and more, is easily accessible and organized.

The TotaLand platform is designed to streamline the complex process of managing contracts in the energy industry. Contracts are seamlessly linked to tracts, parties, instruments, units, and wells as needed, ensuring a holistic view of your project portfolio. With TotaLand, data entry and linkage are simple and efficient, saving you time and resources.

One of the most remarkable benefits of this feature is the ability to generate professional PDF documents with just a click. These documents can be printed, executed, and shared effortlessly. Since the document is generated directly from your data, the Lease Property Report (LPR) or any other form of contract report can be produced instantly, enhancing your reporting capabilities.

Additionally, TotaLand empowers you to provide your clients with data and images related to your projects with ease, further improving communication and transparency in your business relationships.

TotaLand's commitment to innovation and efficiency has made it an indispensable tool for professionals in the energy industry. With this latest enhancement, TotaLand continues to redefine contract management and reporting, making it a must-have solution for organizations seeking to streamline their operations and enhance their service to clients.

Experience the future of contract management with TotaLand. To learn more about TotaLand and its revolutionary features, please visit our website at www.totalandenergy.com or contact us at info@totalandenergy.com.
